

Linear Equations & Applications

SUPPORTING SKILLS LEGEND

Student learning objectives for this unit

I — Introduce

D — Deepen

A — Apply

R — Reinforce

☐ 1. I can **solve** a linear equation and present equivalent steps clearly.

RELATED SKILLS

☐ I Check a proposed solution in the original equation.☐ I Use inverse operations to maintain an equivalent equation.☐ A Apply the distributive property in either direction.☐ A Identify and combine like terms.

☐ 2. I can **solve** a linear equation containing fractions.

RELATED SKILLS

☐ I Clear fractions from an equation using a common denominator.☐ A Add, subtract, multiply, and divide fractions.☐ A Check a proposed solution in the original equation.☐ A Use inverse operations to maintain an equivalent equation.

☐ 3. I can **rearrange** a formula to isolate a specified variable.

RELATED SKILLS

☐ I Isolate a specified variable in an equation or formula.☐ A Use inverse operations to maintain an equivalent equation.

☐ 4. I can **translate** a verbal relationship into a linear equation.

RELATED SKILLS

☐ I Translate quantities and relationships into an equation.☐ A Simplify an algebraic expression using operation properties.

☐ 5. I can **solve and interpret** a number, mixture, or motion problem using a linear equation.

RELATED SKILLS

☐ D Translate quantities and relationships into an equation.☐ A Check a proposed solution in the original equation.☐ A Use inverse operations to maintain an equivalent equation.
