

Inequalities & Absolute-Value Equations

SUPPORTING SKILLS LEGEND

Student learning objectives for this unit

I — Introduce

D — Deepen

A — Apply

R — Reinforce

☐ 1. I can **solve and graph** a one-variable linear inequality.

RELATED SKILLS

☐ I Represent an inequality solution on a number line.☐ I Reverse an inequality when multiplying or dividing by a negative value.☐ A Use inverse operations to maintain an equivalent equation.

☐ 2. I can **solve** a compound inequality involving AND.

RELATED SKILLS

☐ I Interpret AND as the intersection of two inequality solution sets.☐ A Represent an inequality solution on a number line.☐ A Reverse an inequality when multiplying or dividing by a negative value.☐ A Use inverse operations to maintain an equivalent equation.

☐ 3. I can **solve** a compound inequality involving OR.

RELATED SKILLS

☐ I Interpret OR as the union of two inequality solution sets.☐ A Represent an inequality solution on a number line.☐ A Reverse an inequality when multiplying or dividing by a negative value.☐ A Use inverse operations to maintain an equivalent equation.

☐ 4. I can **express** an inequality solution using interval notation.

RELATED SKILLS

☐ I Translate between inequality and interval notation.☐ A Represent an inequality solution on a number line.

☐ 5. I can **solve** an absolute-value equation and check its solutions.

RELATED SKILLS

☐ I Rewrite an absolute-value equation as two cases.☐ A Check a proposed solution in the original equation.☐ A Use inverse operations to maintain an equivalent equation.
