

Polynomials & Factoring

SUPPORTING SKILLS LEGEND

Student learning objectives for this unit

I — Introduce

D — Deepen

A — Apply

R — Reinforce

☐ 1. I can **add and subtract** polynomials.

RELATED SKILLS

☐ D Identify like polynomial terms by variable part and exponent.☐ A Identify and combine like terms.☐ R Identify terms, factors, coefficients, variables, and degree in a polynomial expression.

☐ 2. I can **multiply** polynomials.

RELATED SKILLS

☐ D Multiply a monomial by a polynomial.☐ D Multiply two binomials using distribution.☐ A Apply the distributive property in either direction.☐ A Identify terms, factors, coefficients, variables, and degree in a polynomial expression.

☐ 3. I can **factor** out a greatest common factor.

RELATED SKILLS

☐ D Factor the greatest common monomial factor from a polynomial.☐ A Determine the numerical and variable greatest common factor of polynomial terms.☐ A Identify terms, factors, coefficients, variables, and degree in a polynomial expression.☐ R Verify a factorization by multiplication.

☐ 4. I can **factor** a quadratic trinomial.

RELATED SKILLS

☐ A Identify terms, factors, coefficients, variables, and degree in a polynomial expression.☐ A Verify a factorization by multiplication.☐ R Factor a monic quadratic trinomial.☐ R Factor a quadratic trinomial with a nonunit leading coefficient.

☐ 5. I can **factor** a difference of squares and other required special cases.

RELATED SKILLS

☐ I Factor a difference of two squares.☐ A Identify terms, factors, coefficients, variables, and degree in a polynomial expression.☐ A Verify a factorization by multiplication.

6. I can **use factoring to determine the zeros of a polynomial.**

RELATED SKILLS

I

Apply the zero-product property.

A

Factor a difference of two squares.

A

Factor a monic quadratic trinomial.

A

Factor a quadratic trinomial with a nonunit leading coefficient.

A

Identify terms, factors, coefficients, variables, and degree in a polynomial expression.
