

Parametric Equations

SUPPORTING SKILLS LEGEND

Student learning objectives for this unit

I — Introduce

D — Deepen

A — Apply

R — Reinforce

☐ 1. I can **graph** a plane curve defined by parametric equations with its orientation.

RELATED SKILLS

☐ I Generate ordered pairs from parametric equations.☐ I Graph a parametric curve with its direction of motion.☐ I Read parametric notation and correctly use the terms parameter, coordinate equation, orientation, and parameter interval.☐ A Identify input and output values in a formula, graph, table, or context.

☐ 2. I can **eliminate** a parameter to obtain a rectangular equation.

RELATED SKILLS

☐ I Eliminate a parameter algebraically.☐ A Isolate a specified variable in an equation or formula.☐ A Substitute an equivalent expression for a variable.

☐ 3. I can **create or interpret** parametric equations for motion in the plane.

RELATED SKILLS

☐ I Interpret or construct parametric equations for planar motion.☐ D Generate ordered pairs from parametric equations.☐ A Attach and interpret units for rates, inputs, and outputs.☐ A Explain a model parameter in the language of its context.
